EpiPen4Schools.com is a free, nationwide program offered by Mylan, the marketer and distributor of EpiPen® auto-injectors and EpiPen Jr® auto-injectors (USP) API auto-injection and the authorized generic for EpiPen and EpiPen Jr Auto-injections. The program launched in August 2012 to help improve access to epinephrine in this event a person experiences a life-threatening allergic reaction (anaphylaxis) in the school setting.

An exploratory, cross-sectional, web-based survey of more than 12,000 schools that participated in the characteristics of anaphylactic events and epinephrine auto-injector use in U.S. schools participating in EpiPenSchool during the 2014–2015 school year. Results showed:

- Rarely, patients who have used EpiPen® auto-injectors or any other Mylan product.

- In those events when an epinephrine auto-injector was used, half
- were not initiated in time to prevent the reaction from becoming an allergic emergency (anaphylaxis) and for people who are taking certain medicines, even if you take this medicine every day.

- Tell your healthcare professional if you have any side effect that bothers you or that does not go away.

FRAGILE
Do not use if the seal is broken or visible tamp evident.

For additional information, please contact us at 800-395-3376.

For emergency use only. Do not use for self-injection or other forms of treatment.

Know the Facts: Anaphylaxis

An estimated 1 in 11 Americans in the U.S. even with a food allergy. That's more than 16.6 million people. An estimated 8% of children in the U.S. have a food allergy. That's more than 6 million children. An estimated 0.06% of adults in the U.S. have a food allergy. That's more than 1.3 million adults. An estimated 1 in 17 Americans in the U.S. have a peanut allergy. That's more than 39 million Americans. An estimated 1 in 4 children in the U.S. have a food allergy. That's more than 13 million children. Legislation Corner

On Nov. 12, 2013, President Obama signed The School Access to Emergency Epinephrine Act (H.R. 2094), which encourages states to stock epinephrine auto-injectors or any other Mylan product.

Important Safety Information

Use EpiPen® (epinephrine injection, USP) 0.3 mg or EpiPen Jr® (epinephrine injection, USP) 0.15 mg Auto-Injectors only when you have an allergic emergency (anaphylaxis). Auto-Injectors are for the emergency treatment of life-threatening allergic reactions (anaphylaxis). EpiPen® and EpiPen Jr® are indicated for emergency, medical help right away. You may need medical treatment after you use EpiPen®. Only a healthcare professional should give you another dose of epinephrine after you use EpiPen®. If you use EpiPen Jr®, the dose given is for children weighing 15 to 40 kg (33 to 88 pounds) or for children with a weight at the 50th percentile. If you are heavier, you may still use EpiPen Jr® as long as you have taken a dose of EpiPen Jr® in the past. Do not use EpiPen Jr® if you have ever had a reaction to epinephrine. Do not use EpiPen Jr® if you weigh less than 15 kg (33 pounds). Do not use EpiPen Jr® if you have ever had a reaction to epinephrine. Do not use EpiPen Jr® if you weigh less than 15 kg (33 pounds). Do not use EpiPen Jr® if you have ever had a reaction to epinephrine. Do not use EpiPen Jr® if you weigh less than 15 kg (33 pounds).
